

NZ IAS 10 (Diff Rep)

NZ International Accounting Standard 10 (Diff Rep)

Events after the Reporting Period (NZ IAS 10 (Diff Rep))

Issued November 2012 excluding consequential amendments resulting from early adoption of NZ IFRS 13 (Diff Rep) *Fair Value Measurement*

This Standard was issued by the New Zealand Accounting Standards Board of the External Reporting Board pursuant to section 24(1)(a) of the Financial Reporting Act 1993.

This Standard is a Regulation for the purposes of the Regulations (Disallowance) Act 1989.

As at 1 December 2012, the requirements in this Standard are identical to the requirements in NZ IAS 10 *Events after the Reporting Period* as applied by qualifying entities. Versions of NZ IAS 10 applied by qualifying entities prior to adoption of this Standard are available on the Archived Standards page of the External Reporting Board (XRB) website at xrb.govt.nz

The following New Zealand Interpretations refer to NZ IAS 10 (Diff Rep):

- NZ SIC-7 (Diff Rep) *Introduction of the Euro*
- NZ IFRIC 17 (Diff Rep) *Distributions of Non-cash Assets to Owners*

IASB BASIS FOR CONCLUSIONS	

NZ IAS 10 (Diff Rep)

NZ International Accounting Standard 10 (Diff Rep) *Events after the Reporting Period* (NZ IAS 10 (Diff Rep))[†] is set out in paragraphs 1–24. NZ IAS 10 (Diff Rep) is based on International Accounting Standard 10 *Events after the Reporting Period* (IAS 10) (2003) initially issued by the International Accounting Standards Committee (IASC) and subsequently revised by the International Accounting Standards Board (IASB). All the paragraphs have equal authority but retain the IASC format of the Standard when it was adopted by the IASB. NZ IAS 10 (Diff Rep) should be read in the context of its objective and the IASB's Basis for Conclusions on IAS 10 and the New Zealand *Conceptual Framework for Financial Reporting (Diff Rep)* (NZ Framework (Diff Rep)). NZ IAS 8 (Diff Rep) Accounting Policies, Changes in Accounting Estimates and Errors provides a basis for selecting and applying accounting policies in the absence of explicit guidance.

Any additional material is shown with grey shading and the paragraphs are denoted with “NZ”.

[†] In September 2007 the IASB amended the title of IAS 10 from *Events after the Balance Sheet Date to Events after the Reporting Period* as a consequence of the revision of IAS 1 *Presentation of Financial Statements* in 2007.

Paragraph 21	Amended	NZ IAS 1 [Nov 2007]

NZ IAS 10 (Diff Rep)

Introduction to NZ IAS 10 (Diff Rep)

NZ IAS 10 (Diff Rep) is identical to NZ IAS 10 applied by qualifying entities prior to the issuance of NZ IAS 10 (Diff Rep). That is, there is no change to the recognition, measurement, presentation and disclosure requirements of NZ IAS 10 on adoption of this Standard.

The Standard:

- (a) prescribes the circumstances in which adjustments for events after the reporting period are required;
- (b) prescribes disclosures regarding the date of authorisation for issue and events after the reporting period; and
- (c) prohibits use of the going concern basis if events after the reporting period indicate that the going concern assumption is not appropriate.

Differential Reporting

Qualifying entities must comply with all the provisions in NZ IAS 10 (Diff Rep).

New Zealand International Accounting Standard 10 (Diff Rep)

Events after the Reporting Period **(NZ IAS 10 (Diff Rep))**

Objective

- 1 The objective of this Standard is to prescribe:
- (a) when an entity should adjust its financial statements for events after the reporting period; and
 - (b) the disclosures that an entity should give about the date when the financial statements were authorised for issue and about events after the reporting period.

The Standard also requires that an entity should not prepare its financial statements on a going concern basis if events after the reporting period indicate that the going concern assumption is not appropriate.

Scope

NZ 1.1 This Standard applies only to Tier 3 for-profit entities.

- 2 This Standard shall be applied in the accounting for, and disclosure of, events after the reporting period.

Definitions

- 3 The following terms are used in this Standard with the meanings specified:
- Events after the reporting period* are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are authorised for issue. Two types of events can be identified:
- (a) those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period); and
 - (b) those that are indicative of conditions that arose after the reporting period (non-adjusting events after the reporting period).

NZ IAS 10 (Diff Rep)

- 4 The process involved in authorising the financial statements for issue will vary depending upon the management structure, statutory requirements and procedures followed in preparing and finalising the financial statements.
- 5 In some cases, an entity is required to submit its financial statements to its shareholders for approval after the financial statements have been issued. In such cases, the financial statements are authorised for issue on the date of issue, not the date when shareholders approve the financial statements.

Example

The management of an entity completes draft financial statements for the year to 31 December 20X1 on 28 February 20X2. On 18 March 20X2, the board of directors reviews the financial statements and authorises them for issue. The entity announces its profit and selected other financial information on 19 March 20X2. The financial statements are made available to shareholders and others on 1 April 20X2. The shareholders approve the financial statements at their annual meeting on 15 May 20X2 and the approved financial statements are then filed with a regulatory body on 17 May 20X2.

The financial statements are authorised for issue on 18 March 20X2 (date of board authorisation for issue).

- 6 In some cases, the management of an entity is required to issue its financial statements to a supervisory board (made up solely of non-executives) for approval. In such cases, the financial statements are authorised for issue when the management authorises them for issue to the supervisory board.

Example

On 18 March 20X2, the management of an entity authorises financial statements for issue to its supervisory board. The supervisory board is made up solely of non-executives and may include representatives of employees and other outside interests. The supervisory board approves the financial statements on 26 March 20X2. The financial statements are made available to shareholders and others on 1 April 20X2. The shareholders approve the financial statements at their annual meeting on 15 May 20X2 and the financial statements are then filed with a regulatory body on 17 May 20X2.

The financial statements are authorised for issue on 18 March 20X2 (date of management authorisation for issue to the supervisory board).

- 7 Events after the reporting period include all events up to the date when the financial statements are authorised for issue, even if those events occur after the public announcement of profit or of other selected financial information.

Recognition and measurement

Adjusting events after the reporting period

8 An entity shall adjust the amounts recognised in its financial statements to reflect adjusting events after the reporting period.

9 The following are examples of adjusting events after the reporting period that require an entity to adjust the amounts recognised in its financial statements, or to recognise items that were not previously recognised:

- (a) the settlement after the reporting period of a court case that confirms that the entity had a present obligation at the end of the reporting period. The entity adjusts any previously recognised provision related to this court case in accordance with NZ IAS 37 (Diff Rep) *Provisions, Contingent Liabilities and Contingent Assets* or recognises a new provision. The entity does not merely disclose a contingent liability because the settlement provides additional evidence that would be considered in accordance with paragraph 16 of NZ IAS 37 (Diff Rep).
- (b) the receipt of information after the reporting period indicating that an asset was impaired at the end of the reporting period, or that the amount of a previously recognised impairment loss for that asset needs to be adjusted. For example:
 - (i) the bankruptcy of a customer that occurs after the reporting period usually confirms that a loss existed at the end of the reporting period on a trade receivable and that the entity needs to adjust the carrying amount of the trade receivable; and
 - (ii) the sale of inventories after the reporting period may give evidence about their net realisable value at the end of the reporting period.
- (c) the determination after the reporting period of the cost of assets purchased, or the proceeds from assets sold, before the end of the reporting period.
- (d) the determination after the reporting period of the amount of profit-sharing or bonus payments, if the entity had a present legal or constructive obligation at the end of the reporting period to make such payments as a result of events before that date (see NZ IAS 19 (Diff Rep) *Employee Benefits*).
- (e) the discovery of fraud or errors that show that the financial statements are incorrect.

Non-adjusting events after the reporting period

10 An entity shall not adjust the amounts recognised in its financial statements to reflect non-adjusting events after the reporting period.

NZ IAS 10 (Diff Rep)

- 11 An example of a non-adjusting event after the reporting period is a decline in market value of investments between the end of the reporting period and the date when the financial statements are authorised for issue. The decline in market value does not normally relate to the condition of the investments at the end of the reporting period, but reflects circumstances that have arisen subsequently. Therefore, an entity does not adjust the amounts recognised in its financial statements for the investments. Similarly, the entity does not update the amounts disclosed for the investments as at the end of the reporting period, although it may need to give additional disclosure under paragraph 21.

Dividends

- 12 **If an entity declares dividends to holders of equity instruments (as defined in NZ IAS 32 (Diff Rep) *Financial Instruments: Presentation*) after the reporting period, the entity shall not recognise those dividends as a liability at the end of the reporting period.**
- 13 If dividends are declared after the reporting period but before the financial statements are authorised for issue, the dividends are not recognised as a liability at the end of the reporting period because no obligation exists at that time. Such dividends are disclosed in the notes in accordance with NZ IAS 1 (Diff Rep) *Presentation of Financial Statements*.

Going concern

- 14 **An entity shall not prepare its financial statements on a going concern basis if management determines after the reporting period either that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so.**
- 15 Deterioration in operating results and financial position after the reporting period may indicate a need to consider whether the going concern assumption is still appropriate. If the going concern assumption is no longer appropriate, the effect is so pervasive that this Standard requires a fundamental change in the basis of accounting, rather than an adjustment to the amounts recognised within the original basis of accounting.
- 16 NZ IAS 1 (Diff Rep) specifies required disclosures if:
- (a) the financial statements are not prepared on a going concern basis; or
 - (b) management is aware of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern. The events or conditions requiring disclosure may arise after the reporting period.

Disclosure

Date of authorisation for issue

- 17 **An entity shall disclose the date when the financial statements were authorised for issue and who gave that authorisation. If the entity's owners or others have the power to amend the financial statements after issue, the entity shall disclose that fact.**
- 18 It is important for users to know when the financial statements were authorised for issue, because the financial statements do not reflect events after this date.

Updating disclosure about conditions at the end of the reporting period

- 19 **If an entity receives information after the reporting period about conditions that existed at the end of the reporting period, it shall update disclosures that relate to those conditions, in the light of the new information.**
- 20 In some cases, an entity needs to update the disclosures in its financial statements to reflect information received after the reporting period, even when the information does not affect the amounts that it recognises in its financial statements. One example of the need to update disclosures is when evidence becomes available after the reporting period about a contingent liability that existed at the end of the reporting period. In addition to considering whether it should recognise or change a provision under NZ IAS 37 (Diff Rep), an entity updates its disclosures about the contingent liability in the light of that evidence.

Non-adjusting events after the reporting period

- 21 **If non-adjusting events after the reporting period are material, non-disclosure could influence the economic decisions that users make on the basis of the financial statements. Accordingly, an entity shall disclose the following for each material category of non-adjusting event after the reporting period:**
- (a) **the nature of the event; and**
 - (b) **an estimate of its financial effect, or a statement that such an estimate cannot be made.**
- 22 The following are examples of non-adjusting events after the reporting period that would generally result in disclosure:
- (a) a major business combination after the reporting period (NZ IFRS 3 (Diff Rep) *Business Combinations* requires specific disclosures in such cases) or disposing of a major subsidiary;
 - (b) announcing a plan to discontinue an operation;

NZ IAS 10 (Diff Rep)

- (c) major purchases of assets, classification of assets as held for sale in accordance with NZ IFRS 5 (Diff Rep) *Non-current Assets Held for Sale and Discontinued Operations*, other disposals of assets, or expropriation of major assets by government;
- (d) the destruction of a major production plant by a fire after the reporting period;
- (e) announcing, or commencing the implementation of, a major restructuring (see NZ IAS 37 (Diff Rep));
- (f) major ordinary share transactions and potential ordinary share transactions after the reporting period (NZ IAS 33 (Diff Rep) *Earnings per Share* requires an entity to disclose a description of such transactions, other than when such transactions involve capitalisation or bonus issues, share splits or reverse share splits all of which are required to be adjusted under NZ IAS 33 (Diff Rep));
- (g) abnormally large changes after the reporting period in asset prices or foreign exchange rates;
- (h) changes in tax rates or tax laws enacted or announced after the reporting period that have a significant effect on current and deferred tax assets and liabilities (see NZ IAS 12 (Diff Rep) *Income Taxes*);
- (i) entering into significant commitments or contingent liabilities, for example, by issuing significant guarantees; and
- (j) commencing major litigation arising solely out of events that occurred after the reporting period.

Effective Date

23 [Deleted]

NZ 23.1 This Standard applies to annual periods beginning on or after 1 December 2012. Early application is permitted. This Standard replaces NZ IAS 10 as applied by qualifying entities prior to the issuance of this Standard. There are no changes to the requirements of NZ IAS 10 as it applied to qualifying entities.

Withdrawal of IAS 10 (Revised 1999)

24 [Paragraph 24 is not reproduced. The withdrawal of previous IASB pronouncements is not relevant to this Standard.]
