Basis for Conclusions

This Basis for Conclusions accompanies, but is not part of, IPSAS 4.

Background

- BC1. The IPSASB's IFRS Convergence Program is an important element in the IPSASB's work program. The IPSASB's policy is to converge the accrual basis IPSASs with IFRSs issued by the IASB where appropriate for public sector entities.
- BC2. Accrual basis IPSASs that are converged with IFRSs maintain the requirements, structure, and text of the IFRSs, unless there is a public sector-specific reason for a departure. Departure from the equivalent IFRS occurs when requirements or terminology in the IFRS are not appropriate for the public sector, or when inclusion of additional commentary or examples is necessary to illustrate certain requirements in the public sector context. Differences between IPSASs and their equivalent IFRSs are identified in the *Comparison with IFRS* included in each IPSAS. The Comparison with IAS 21 references only the version of IAS 21 that was revised in 2003 and amended in 2005.¹
- BC3. In May 2000, the IPSASB's predecessor, the Public Sector Committee (PSC),² issued the first version of IPSAS 4, *The Effects of Changes in Foreign Exchange Rates*, which was based on IAS 21, *The Effects of Changes in Foreign Exchange Rates* (1993). In December 2006, the IPSASB revised IPSAS 4, which was based on IAS 21 (Revised 2003), as part of its General Improvements Project. In December 2005, the IASB issued an amendment to IAS 21 (published as *Net Investment in a Foreign Operation*.)
- BC4. In early 2007, the IPSASB initiated a continuous improvements project to update existing IPSASs to be converged with the latest related IFRSs to the extent appropriate for the public sector. As part of the project, the IPSASB reviewed the IASB's amendment to IAS 21 issued in December 2005 and generally concurred with the IASB's reasons for amending the IAS and with the amendment made. (The IASB's Basis for Conclusions as a result of the amendment is not reproduced here. Subscribers to the IASB's *Comprehensive Subscription Service* can view the Basis for Conclusions on the IASB's website at <http://www.iasb.org>).
- BC5. IAS 21 has been further amended as a consequence of IFRSs and revised IASs issued after December 2005. IPSAS 4 does not include the consequential amendments arising from IFRSs or revised IASs issued after December 2005. This is because the IPSASB has not yet reviewed and formed a view on the applicability of the requirements in those IFRSs and the revisions to those IASs to public sector entities.

¹ The International Accounting Standards (IASs) were issued by the IASB's predecessor, the International Accounting Standards Committee. The Standards issued by the IASB are entitled International Financial Reporting Standards (IFRSs). The IASB has defined IFRSs to consist of IFRSs, IASs, and Interpretations of the Standards. In some cases, the IASB has amended, rather than replaced, the IASs, in which case the old IAS number remains.

² The PSC became the IPSASB when the IFAC Board changed the PSC's mandate to become an independent standard-setting board in November 2004.
